

Dear Parents,

Students at AIS strive to improve their English, yet some AIS and non-AIS parents have inquired about their level of proficiency. To provide this data, we surveyed the number of students who successfully passed the Eiken test and informed the school by November of this year. The details are listed below.

Also, as previously notified, AIS will implement Eiken testing in school for all children from Orca through to Grade 6 at the end of January 2021, results of which will be provided to families.
