- In principle, class numbers are allocated based on the age of students as of April 2, 2024. Please note that class capacity is allowed up to 12 students.
- However, as there have been many requests from Japanese parents for at least 1 non-Japanese student within each class, permission may be given to allow a 13th student in to a single classroom, if she or he is non-Japanese.
- Students with non-Japanese citizenship whose birthday falls between April 2 and September 1, 2024 and have plans to return to their home country during the academic year, may, if desired, seek approval from the discretionary committee to enter at a higher grade.
- The general homeroom teacher allocation is for up to 12 students per one native English-speaking teacher. There may be changes to the student capacity depending on the number of applicants and classroom availability.
- Whereby the number of students for the academic year is more than 12, an additional classroom assistant (not necessarily a native English-speaker) will be assigned. However, in principle, one teacher will be responsible for lesson classes even if more than 12 students.
- Please pay the application fee at the time of application, and the entrance fee within two weeks of receiving the Notice of Acceptance. However, the entrance fee will not be refunded under any circumstances even after only one day of attendance.
- There is a preferential application period for current AIS kindergarten students wishing to proceed to the elementary school. No application fee is required. For successful applications, the entrance fee is calculated at the difference between the entrance fee paid at the time of entering kindergarten and that required for elementary school. However, the entrance fee will not be refunded under any circumstances even after only one day of attendance.
- All students are required to pay the tuition, supply fees, and building fees. Please make payments prior to the start of the new term, or before entering school mid-year. (Installment plan available)
- In the case whereby a student wishes to take extended absence from school, half of the study fee for the applicable period will be required to retain class placement. If payment has not been made, the student will be withdrawn from the class, and as such, returning to school cannot be guaranteed.
- Supply fees are a total for one year to cover costs including events in and outside of school, school bus transportation, entrance fees to various external visits, snacks, threadworm inspection charges, etc.
- Building fees are maintenance costs to cover repairs, renovations, depreciation, and future extensions borne from use and wear of the school buildings and facilities.
- In addition to the above costs, there are incidental charges for personal use school materials, medical check, various school excursions, specially ordered items for annual events such as the Christmas concert, and uniforms, etc.

- Please make an application to join AIS after carefully reading and understanding the AIS Parents Rules on the reverse page.
- The application fee covers entrance selection charges and processing costs, and will not be refunded under any circumstances.
- The entrance fee is a one-time payment. A partial refund may be made if entrance acceptance is declined after payment has been received.
- However, the entrance fee will not be refunded under any circumstances even after only one day of attendance.
- Advancement from kindergarten to elementary school requires the difference between the respective entrance fees to be paid.
- Any student who transfers to a different school and returns to AIS at a later date will be exempt from paying the entrance fee again; however, a charge will be incurred.
- Tuition and other school expenses shall be paid in full prior to commencement of the new school year (by March 31).
- However, payment of tuition fees may be made in three installments during the year if the school is notified in writing. In such case, a processing charge of ¥2,200 per student for each installment will be incurred.
- Discounted payment is available for Term 1 only (indicated in () in the table below) for students with non-Japanese citizenship who wish to attend for less than half a month in June due to returning to their home country with family.
- Permission to attend for Term 1 only (April to June) may be granted if class capacity allows in cases such as students intending to begin school from September, or due to family circumstances, etc.
- Tuition, supply fees and building fees for students enrolling mid-year are calculated monthly according to the number of school attendance days per term. Payment for the entire month will be charged even for attendance of only one day.
- If a student leaves AIS mid-year, the tuition, supply fees and building fees for remaining terms will be refunded; however, no refund will be given for a term if the student attends school for even one day. Please note that this differs from the monthly calculation for students joining the school mid-year.
- Whereby a student wishes to take extended absence from school, half the standard tuition fees will be incurred in order to retain class placement.
- Please note that non-payment for 30 days or more after the scheduled payment date will result in attendance being suspended.
- With the exception of the application fee, all charges shall be made by automatic payment from a Bank of Tokyo-Mitsubishi UFJ account. At time of acceptance to the school, please fill out and submit an automatic payment form.
- Arrival time to school (drop-off by parent) is from 15 minutes prior to the start of respective classes. Pickup time will begin within 15 minutes after classes finish. For those dropping off and picking up students by car, please note that the street in front of the school is one-way only and parking on the street is strictly prohibited. Please take care.
- Upon consultation, 'child care' is available for students remaining after regular school hours if staff are available (until 5pm; 330 yen/15 mins).
